BASSANO, ALTA., THURSDAY JULY 27, 1911.

NO. 17

ELEVATOR TO BE ERECTED

Adding another to its long string of elevators that tower beside the depots in a score of Alberta towns, the Alberta Pacific Elevator Co. have decided to build an elevator in Bassano. A carload of lumber arrived this week and the building will be commenced at an early date and rushed to completion, so that full advantage may be taken of the abundant crop of which there is every indication. The elevator will be built 200 feet east of the freight sheds and is only one of several elevators that will be built here. Positive assurance has been received from other companies that they will come to Bassano.

MARRIAGE BELLS

Are Ringed at The Drum—Two Newlyweds Settled on Banks of the Bow

The little little settlement located on the banks of the Bow river above the horseshoe where the immense dam is being built, is rejoicing in itself over the fact that two young married couples are now residents thereof. Mr. and Mrs. Newton Davis and Mr. and Mrs. Howard A. Richards are the couples who recently were united at the horseshoe altar. Miss Emily Gray of New London, Conn., is the bride of Howard Richards, who also comes from that city. The marriage was solemnized in the Connecticut city and the bride and groom are living here now. Mr. Richards is one of Kellogg's foremen. Newton Davis was married to L. H. Wynne, of Orlino, Ont. Mr. Davis' home is in Glasgow, Ont. The romance probably commenced in the pretty little city of Orlino, but say the marriage event followed in Kellogg.

What is any place without a marriage couple? The Kellogg camp is happy.

"THE SUGAR BOWL"

Medicine Hat Man Starts New Confectionery and Fruit Store Here.

Mr. Rhodes of Medicine Hat started a new business in the Patton & Piel building to sell fruit, confectionery, ice cream, soft drinks etc. and the place will be popularly known as "The Sugar Bowl". Mr. Rhodes has opened his store and should get a good share of public patronage. Home made candy and candy and general confectionery will be his specialty. The store has been nicely fitted up and abundant fruits are on display.

BROOK'S FARMER'S AWFUL DEED

Swift Current, Sask. July 25.—Buried into temporary insanity by the refusal of his frightened wife to accompany him back to his farm at Brooks Alberta, Robert H. Stewart shot his wife three times in his father's home where he was staying, then turning the revolver on himself, snatched by firing three bullets into his own heart, dying instantly. Stewart threatened to shoot his wife some time ago and was sent to Brandon saying for a time. Being discharged later, he went to Brooks, where he worked for a time, but yesterday he returned to his father's home where his wife and children were staying. After discussing family affairs, Stewart asked his wife to accompany him back to Brooks but being afraid of his madness she refused, and shortly afterwards Stewart entered the home with a revolver and shot her three times, then shot himself. Later examination brought to light about 30 cartridges in his pocket, leading to the conclusion that he had intended to shoot up the family but lost his nerve after shooting his wife and turned the weapon upon himself. Mrs. Stewart may recover.

PARTOOK OF THE FIRST COMMUNION

Some Bassano boys and girls went to Gleichen this week to partake of the First Communion, as solemnized by the Roman Catholic church. Father Stinson was the officiating priest, Irene Ernest, Albert, and George Deshaene, Billy Allen and John Hennessey were the names of the Bassano children. Miss Mabel Allen was also confirmed in the church. Mrs. Hennessey and Miss Sue Kienemann went to Gleichen also.

HUTTON and District

Hutton, July 25d.—Messrs. Larson and Berg met with a serious loss two weeks ago. They were rafting 50,000 feet of cut lumber on the Red Deer river, which they brought from the Great West Lumber Co. of Red Deer, and as the raft came in contact with the piles of the new C. N. B. bridge, 50 miles northwest of this town, a jam took place. The lumberjacks worked strenuously for two days, but were unable to make it move. On the third day of the jam the foreman of the bridge construction dispatched a number of his men to break the raft up, he feared the piles would be damaged, hence the loss of nearly the whole shipment. This accident has caused a dislocation of partnership between Messrs. Larson and Berg, and N. T. Ferguson and L. J. Kemp were called upon to settle the deal. Mr. Berg will continue selling lumber here, and Mr. Larson has abandoned the business for the time being.

A large wolf while out driving. Mr. Lambers was returning to town and when about seven miles from here he espied a large wolf following close behind him. The wolf followed at a distance of three miles when he took to the prairie.

Dan Cowger won't go feeling any more. J. Hunsdon and stage driver good money for him. His latest capture is a muskrat 10 inches in diameter 30 inches in circumference and 9 1/2 inches thick while he picked up and took to the farm.

Win. Olschbaugh killed a rattlesnake last week which measured 4 feet long and had four fangs.

Mrs. Harrington left for Calgary last week on a short visit.

Mr. Hally, brother-in-law to F. Floyd arrived in town this week.

Nick McKee will operate Park's coal mine shortly. He has leased his livery barn to James Dickson. An addition and other alterations will be made to the barn.

John Alexander has taken an agency for the following Nursery stock firms: Stone-Wellington, Fronthill Nursery and Star Nursery of Toronto also Thos. Burrows & Sons, Ridgeway, Ont.

X. P. Ferguson is anxiously awaiting the arrival of his new bicycle as soon as it reaches here he expects to wheel to the homestead every night.

The piano won by Mrs. Jones in the growing contest is expected shortly.

Her. Fullard will hold services every Sunday at 2.30 p. m. in Park's Prairie school.

FLOUR MILL TO BE ERECTED. A letter was received by Mr. Andrew Hoffman from A. H. Willist, Secretary of the Union Trust Co. stating that the new mill which was to be erected near the Red Deer river and for which the lumber and machinery arrived some time ago, will be built in the town of Hutton. In another letter of more recent date Mr. Willist assures Mr. Hoffman that the projected hotel will be built this summer without fail.

HUTTON BRIEFS
Last Tuesday, Henry Lambert of Malton's general store was pursued by

RAILWAY MATTERS

The new C. P. R. depot is almost ready for occupancy. In fact Station Agent B. C. Corey expects the new building will be occupied early next week. The present depot is to be re-modelled and will be a sectionmen's bunk house. It is anticipated that a permanent section gang will be kept in town to look after the yards here and the line in this vicinity. A new coal chute is to be built at once and in future the coal will be hoisted by the assistance of a gasoline engine. The present hoist will be torn down. Other very important changes are rumored but no definite announcement has been made as yet.

Notice to Creditors TOWN COUNCIL DECIDE TO DRILL WELLS

In the matter of the Estate of ANNIE JOHNSON late of near Bassano in the Province of Alberta, Widow, deceased.

Notice is hereby given that all persons having any claim or demands against the late Annie Johnson, who died on the Fourth of April, 1911, near Bassano aforesaid, are required on or before the 26th August, 1911, to transmit to the undersigned Solicitor for the Administratrix of the said Estate, their names and addresses and particulars of their claims in writing, and a Statement of their accounts and the nature of the securities (if any) held by them such Statement to be verified by Statutory Declaration.

And take notice that after the 26th August, 1911, the Administratrix will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which she shall then have had notice and will not be liable for the said assets or any part thereof to any person of whose claim she shall get then have had notice.

Dated this 21st day of July, 1911.

FRED LANGMUIR,
Clareholm, Alberta.

FACTS About KRESO DIP

Kreso Dip No. 1 is a non-carbolic coal tar product combined with soluble sulphur.

It is for use upon Horses, Cattle, Sheep, Goats, Hogs, Dogs, Poultry and all other animals.

It kills lice, ticks, mites, flies, drives away fleas and mosquitoes, cures mange, scabs, ringworm and other skin diseases, disinfects, cleanses and deodorizes.

A material of this kind is necessary to keep stock in a healthy and thrifty condition, free from parasites and skin diseases. Give Kreso Dip No. 1 a trial and you will regard it as a necessity thereafter.

KRESO DIP NO. 1 IS BEST

Because it is non-carbolic. When used as directed, it is not poisonous, caustic, injurious or irritating, either to the animal or to its hide.

Because it is standardized by chemical and biological tests, making it always the same—dependable.

Because it contains soluble sulphur, which has a very beneficial effect when deposited upon an animal's skin and in a measure prevents its re-infection.

Because the creosols form the basis of its active qualities. Scientific authorities recognize these materials as the best known insecticides and disinfectants, yet at the same time they are the least harmful to higher animal life.

Occasionally we find stockmen who have some favorite material, such as kerosene, kail, tobacco water, lamp grease, wood ashes, etc. for killing lice. They cling to this with the mistaken idea that they are cheap. Kreso Dip No. 1 is just as superior to these as the modern harvester is ahead of the sickle or the railway train is ahead of the stage-coach.

J. R. SHARP

L. D. NESBITT, Editor

THURSDAY, July 27 1911

This newspaper has been pursuing the tenor of its way for a year and the progress of Father Time has brought around again the time when the subscriptions of the majority of the subscribers to

The News have run out. Now most people DID YOU EVER hate to receive a note saying their subscription has run out, more than anything else in the world, except a tax notice. It just seems to be human nature. If it were in our power to put up this newspaper and give it to the poor gratis, gladly would we do it. But it has fallen to our lot, as well as the rest of the sons and daughters of Adam and Eve to sustain for our bread and butter. Unlike the lilies of the field, we have to toil and spin for our daily sustenance. Hence we need the subscriptions.

If we have to say so ourselves it takes a lot of figuring to run a newspaper in a town of 1,000. If a Washington press and a couple of cases of type completed our equipment it might be different but what kind of a newspaper would represent Bassano? We have a good Babcock fitted press, capable of running a 2,000 circulation daily, a 3 h. p. engine, besides job presses, type, paper cutter and other equipment. And the newspaper does not discredit the town by any means. We do our share of securing publicity for Bassano. Only last week, The Toronto Star, a splendid newspaper with a circulation of 75,000 throughout Ontario, printed two long extracts from our columns giving The Hwasan News proper credit. Other eastern papers do the same. In Calgary, Lethbridge and Edmonton the newspapers continually draw public attention to our town by copying extracts from our columns. All this is beneficial to Bassano.

We write this to explain to our subscribers why it is our lot to persist to support The News. Don't swear when you have to renew your subscription. Swearing's bad anyway.

It is quite a problem for a young town to have on its hands, this immediate need drainage. The building of a sewage and drainage system usually occurs in a town's life, immediately before permanent pavement on roads are thought of. But here in Bassano, two years old, and with a drainage problem aboard ship. But the stagnant water has to go if healthy people are to live here. Otherwise it will be fever and more occupied plots in the cemetery. The health of a town is, like that of an individual, the most important asset that town possesses. To give a town a name of being unsalubly sounds its death knell as far as progressiveness is concerned, or unless other extraordinary advantages keeps people there despite the danger. The town council of Bassano owes it to the citizens to keep the town in such a sanitary condition as to maintain the health of the citizens. It is a wise policy when the start of a drainage system is made, to make it permanent. The wells that are drilled to drain off the stagnant water in the hollow behind the railway depot will go down into the gravel. Well drillers tell us this system of drainage is a success. The well will drain off an amount of water equal to its own flow, hence the object of the driller is to get the best well possible. This system seems to afford the most immediate plan of relief. The cost will be several hundred dollars but that is not to be considered when the health of a community is at stake. The sooner the water is drained the safer all will feel.

EDITORIALETTES

Toronto, (Out.) Star: The Canadian West has apparently once again heard of Ontario's water shortage. The article was clever enough, but the fact is, The Bassano (Alta) News of July 6 published the following paragraph: "It would be hard to recognize in the green flower of grain standing on every side the burnt up barren prairie of last year at this time etc. etc." Ontario farmers will read the foregoing with a sigh of envy.

A young newspaperman in Edmonton wrote a long "knock" on western Canada last Sunday. His paper, The article was clever enough, but the fact is, The Bassano (Alta) News of July 6 published the following paragraph: "It would be hard to recognize in the green flower of grain standing on every side the burnt up barren prairie of last year at this time etc. etc." Ontario farmers will read the foregoing with a sigh of envy.

Harvest time is drawing near. Our

by one the farmer is shoulding the load of anxiety and fears concerning the crop that endures him and troubled his sleep.

If the government keeps the trails out of here in good condition the trails of many a homesteader will be earned.

TRAIL WILL BE FIXED

Deputy Minister Promises to Have Matter Looked Into.

Here is some good news for those who use the trail from here to Hutton. Mr. John Stocke, deputy minister of public works wrote to R. C. Pegler secretary of the board of trade, last week saying the road would be examined by an inspector soon and put in proper repair.

The Bassano board of trade took this matter up some time ago, the trail having been in a poor condition all spring.

SYNOPSIS of Canadian Northwest Land Regulations
Any person who is the sole head of a family, or any male over 18 years old may homestead a quarter section (160 acres) or less of available land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Every person may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of land-holding homesteader.

DUTIES-Six months' residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his acreage solely owned and occupied by him or his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section adjoining his homestead. Price, \$3.00 per acre. DUTIES - Must reside six months in each of three years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres acres.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price, \$20.00 per acre. DUTIES - Must reside six months in each of three years from date of homestead entry and cultivate fifty acres and erect a house worth \$200.

BERRY CREEK NEWS

Berry Creek July 20th 1911—
Such dandy weather, such luxurious
grass, such healthy looking crops. What
a country this is! Hurrah for Berry
Creek.

Lightning struck Mr. E. Burdick
fence last Sunday and tore up several
posts but did not do a great amount of
damage.

Everyone is looking forward to the
farmers picnic Aug. 1st. An invitation
in the shape of a musical entertainment
is being arranged. Mr. Stearn's picnic
was a great success.

A large number of settlers are co-
operating with the United Farmers of

Alberta and organizing a district of
about 10 miles square. This is a splen-
did scheme and well deserving of all
support from those inside this area.

Striding down the road last evening
smoking a powerful pipe after a day of
heavy labour, we were attracted by a
sudden outbreak of melodious harmony.
The bird of music we had not heard for
years, 'till now we heard the famous
Mellie and Caruso at the Opera Comique
in Paris, singing across the interval.
The crowd we crept up to the open win-
dow from which the glorious notes were
tripping forth in wondrous cadence
we discovered it was the Berry Creek
glee singers practising for the picnic.

STORY OF INDIAN MISSIONS IN THE N. W.

A vivid story of the work in mission-
izing the Indian of the north west was
told by Ven. Archbishop Tinn of the
Saskatoon diocese in an address given on
Tuesday night in Prince's hall at the
first meeting of the Calgary diocese
here. Quite a number of townspeople
were present, and the speaker was
listened to with the greatest interest.

The first Indian mission in the north
west was by the church of England was to
the Mohawks in 1700. Then the work
was extended to Manitoba, and what
was then known as the northwest ter-
ritories.

John West chaplain to the Hudson
Bay Co. made an attempt in 1820 to

ameliorate the conditions of the Indians
on the Red river. The first church was
erected in 1823 and was very successful.
The days of those early missionaries
were filled with hardship and toil.

In 1830 the first native was ordained
and 1800 people attended the service
at St. Andrew's, Regina, Archbishop
Tinn was the first missionary to the
McKenzie river district. He was joined
in 1860 by Rev. R. McDonald and the
two laboured in the Arctic circle
among the Indians. There were then 17
missions from the church of England,
the northwest territory.

The speaker dwelt on the manifold
hardships endured, on the starvation of
some missionaries, the long journeys
through cold and snow, and years in
a country where a white man was sel-
dom seen. Some died amid the scenes
of their labors and others went back to
civilization after years of serving their
fellow man.

- CROP REPORT

The C. P. R. crop report for last
week shows that in the eastern and
southern districts prospects were never
brighter, while at a few of the most
northerly points plenty of rain is re-
ported and a prayer expressed for fine
summer ripening weather.

At Bathia, Alberta, crops are so ad-
vanced that cutting of fall wheat is ex-
pected to take place only a week from
now.

In the district immediately surround-
ing Calgary matters are nearly as sat-
isfactory, and Strathmore expects to
cut about August 25.

BROOKS—Plenty of moisture; crops
headed out and in fine condition.

BASSANO—Crops doing fine, weather
favorable, prospects bright.

GLACIER—Plenty of rain; hail dam-
aged crop to slight extent.

STANLEY—Cutting will start in
early August; no damage by hail or
other prospects never brighter.

ATLANTA—Wheat about headed out
prospects good.

AT THE

CROWFOOT NEWS

Mr. and Mrs. C. Robinson and
family were in Bassano this week.

It is reported here that hail fell at
Chumy and destroyed a considerable
part of the crop.

The Crowfoot Farming Company
have plowed three sections so far and
are going to put in a lot of seed next
year. Mr. VanDyke is in charge.

At the Cannyside ranch, owned by
Mr. C. Robinson, new potatoes are
being used and vegetables are being
in abundance. The crop is growing
in a great harvest is expected.

SHOW COMING

Picture of the Rockies will be shown
in a show that has never been before
in this part of the country, on
Thursday, Friday and Saturday, when
Mr. Johnson will show these pictures.

The Education Bulletin says about
Another pleasing feature is Mrs.
Johnson singing South Sea Island songs.
Mrs. Johnson has a strong, sweet so-
norous voice, and renders these songs
with a fine, artistic grace. She also
sings a number of popular songs which
she and her husband sing.

This is the show consists of a series
of moving pictures and slides of the
scenes of the South Sea Islands and
their occupants taken by Mr. Johnson
while with Jack London on the famous
little vessel "Sequoia" on her trip around
the world. To say the least these pic-
tures are very interesting as well as
instructive and are enjoyed by the
deeply religious people as well as others
inasmuch as they show some of the
work being done by the missionaries in
these islands for the poor heathen in-
habitants. Mr. Johnson with his beau-
tiful resonant voice explains fully all
the scenes shown in these pictures to
everyone's satisfaction.

Hon. Frank Oliver may be without
honour in the eyes of a certain Educa-
tion clique, but that he is sold through-
out the country at large has been shown
in unqualified degree during the short tour
he made in the province while parlia-
ment was adjourned. At every point
he was enthusiastically received, and
his political friends, and foes too, vied
with one another to extend their ap-
preciation of his services on the part
of the public and to pay him personal
tributes.

It goes without saying that Mr.
Oliver was deeply affected by the warm
welcome he received, and he expressed
his sincere appreciation of the kindness
of the Yegreite friends—Gleaner.
